

Position: M&R Supervisor – NY/NJ Metro Terminals

To Apply: Submit resume and cover letter, including salary requirements to Human Resources:
careers@seacastleinc.com

Work Location: Port Elizabeth, NJ

Reports To: Regional Manager

Position Summary:

Compliance and control of M&R programs, repairs and recommended services of both depot and pool chassis at APM / Metro Pool. Work with terminal staff and M&R vendors to provide our customers with safe, reliable equipment, in full compliance with all regulations.

Responsibilities:

- Perform pre, during and post repair quality control inspections of chassis. Perform required vendor audits, reports, measure progress and follow-up at APM / Metro Pool and other locations as dispatched including the depots on a timely basis.
- Reduce costs by constantly reviewing estimates for efficient repairs, correct tariff times, parts pricing and repair procedures.
- Accurately determine and submit terminal claims for chassis damages.
- Inventory management: interact with operations department in the repositioning and control as required to maintain proper inventory levels.
- Oversee and manage tire, warranty and any other corporate programs at assigned pools and depots and in conjunction with staff personnel.
- Reviewing and approve Metro Pool invoices via EDI and manually where appropriate.
- Maintain daily and/or weekly operational reports designed to manage and illustrate pace of repairs.
- Oversee on and off-hire surveys of chassis, verification of customer hired surveyors' results and/or joint inspections with customer supplied surveyors.
- Oversee and help further control scrap program at depots.

Requirements:

- Minimum 2 years Intermodal experience and knowledge of industry with an understanding of maintenance requirements for intermodal equipment
- IICL Chassis certification a plus
- Must have a valid driver's license, and pass a background check
- Must be able to perform "walk-around" inspection of chassis, as well as using a crawler to check brakes and axles
- Must be able to lift and move truck tires
- Excellent communication and interpersonal skills

- Proficient with Microsoft Office (Word and Excel)
- Flexibility to quickly adapt to change
- Ability to excel in a fast paced and dynamic work environment
- Excellent attention to detail
- Must be able to multi-task and work independently as well as contribute to the overall success of the team
- Must comply with OSHA regulations and specific location safety policies and procedures.

Work Environment

- This job function is performed on-site at a marine terminal requiring significant safety precautions and safety gear.
- Tempo is fast-paced with stringent deadlines.
